Vocabulary Review Sheet

Objective: Review the meanings of the following terms for the test by locating each of these terms in your Daily Log (notes) and completed class work. Copy the definitions onto this worksheet.

force

motion

gravity

weight

mass

net force

balanced force

unbalanced force

newton

friction

static friction

sliding friction

rolling friction

fluid friction

momentum

Law of Conservation of Momentum –

Inertia

Newton's first law –

Newton's second law –

Newton's third law –
