VIII

Vocabulary Review Sheet

Objective: The purpose of this lesson is to identify critical vocabulary used in this unit and to review the definitions of these words in preparation for the test.

Directions: Write the definition for each term listed below using complete sentences.

electromagnetism

spectrum

radio wave (includes microwave)

infrared wave

visible light

ultraviolet wave

x-ray

gamma ray

cosmic ray

wave intensity

photon

translucent

opaque

transparent

luminous

incandescent

fluorescence

phosphor

laser

prism
